Levelled home reading books

- We would like to add to our levelled home reading libraries for each Div 1 class. Due to learning disruptions due to COVID we're seeing more students falling into lower levels than we previously had and need to increase the collections for these levels to help bridge the gaps
- Due to COVID measures we send 3 books home with each child at a time so our current libraries are not adequate with increased numbers of below grade level readers coming to us. To help close the learning gap made by school closure and lack of funding for literacy pullout it is more important than ever to have appropriately levelled reading materials for every classroom cohort. At these beginning levels books can be difficult for families to provide themselves so they must come from school
- \$3951.01 (incl. tax and shipping)

Motion: Anna

Second: Stephanie

Fundraising

- Staples Christmas Cards; office will deal with these order. Cards are completed by students.
- Growing Smiles; Rhonda is waiting on finalizing details. They may be able to deliver straight to our homes instead of the school. Jeff is in agreement it should proceed but thinks it may cost quite a bit more for personal delivery

Hot Lunch

- Still cohorting and no volunteers allowed so no update. People really miss it!

Old Business

- Yearbooks
- As of Saturday Mandy still hadn't heard back from Staples. She is going to follow up, expect update next meeting.
